

Email 1: Requesting an Assignment Extension

Subject: Extension Request: Assignment Name#12 – Abhinav Raj

Dear Professor Dutta,

I want to ask if I can have time to finish my Research assessment. It is supposed to be done by 18/03/26.

Something unexpected happened with my family. Now I am behind schedule. I really want to do a job on this assignment and make sure it is good enough for your course. If I can have a little time I can make sure my work is good and well-researched.

Can I please submit my assignment by 20/03/26 instead? I have already started my research. I think I can finish it by then.

Thank you for taking the time to read my email and think about my request. I hope to hear from you

Best regards,

Abhinav Raj, Student ID Number:10070, Course Name: CSE001

Email 2: Inquiry Regarding Summer Internship

Subject: Internship Inquiry: Summer 2026.

Dear Internship Coordinator

I am writing to say that I am very interested in doing a summer internship with the Engineering team at ABC CORP. I am a second year student at VIT. I am studying cybersecurity.

I have learned a lot from my classes and from my experiences. Now I want to use these skills to help a company, like ABC CORP. I think I can help your team and learn from them at the time.

I have sent you my resume and a cover letter. I would like to talk to you about how I can help with your internship program.

Thank you for reading my email. I hope to talk to you

Sincerely

Abhinav Raj, Mob no. 7979Xxxx
